

Discuss Meeting With Neil deGrasse Tyson

November 25

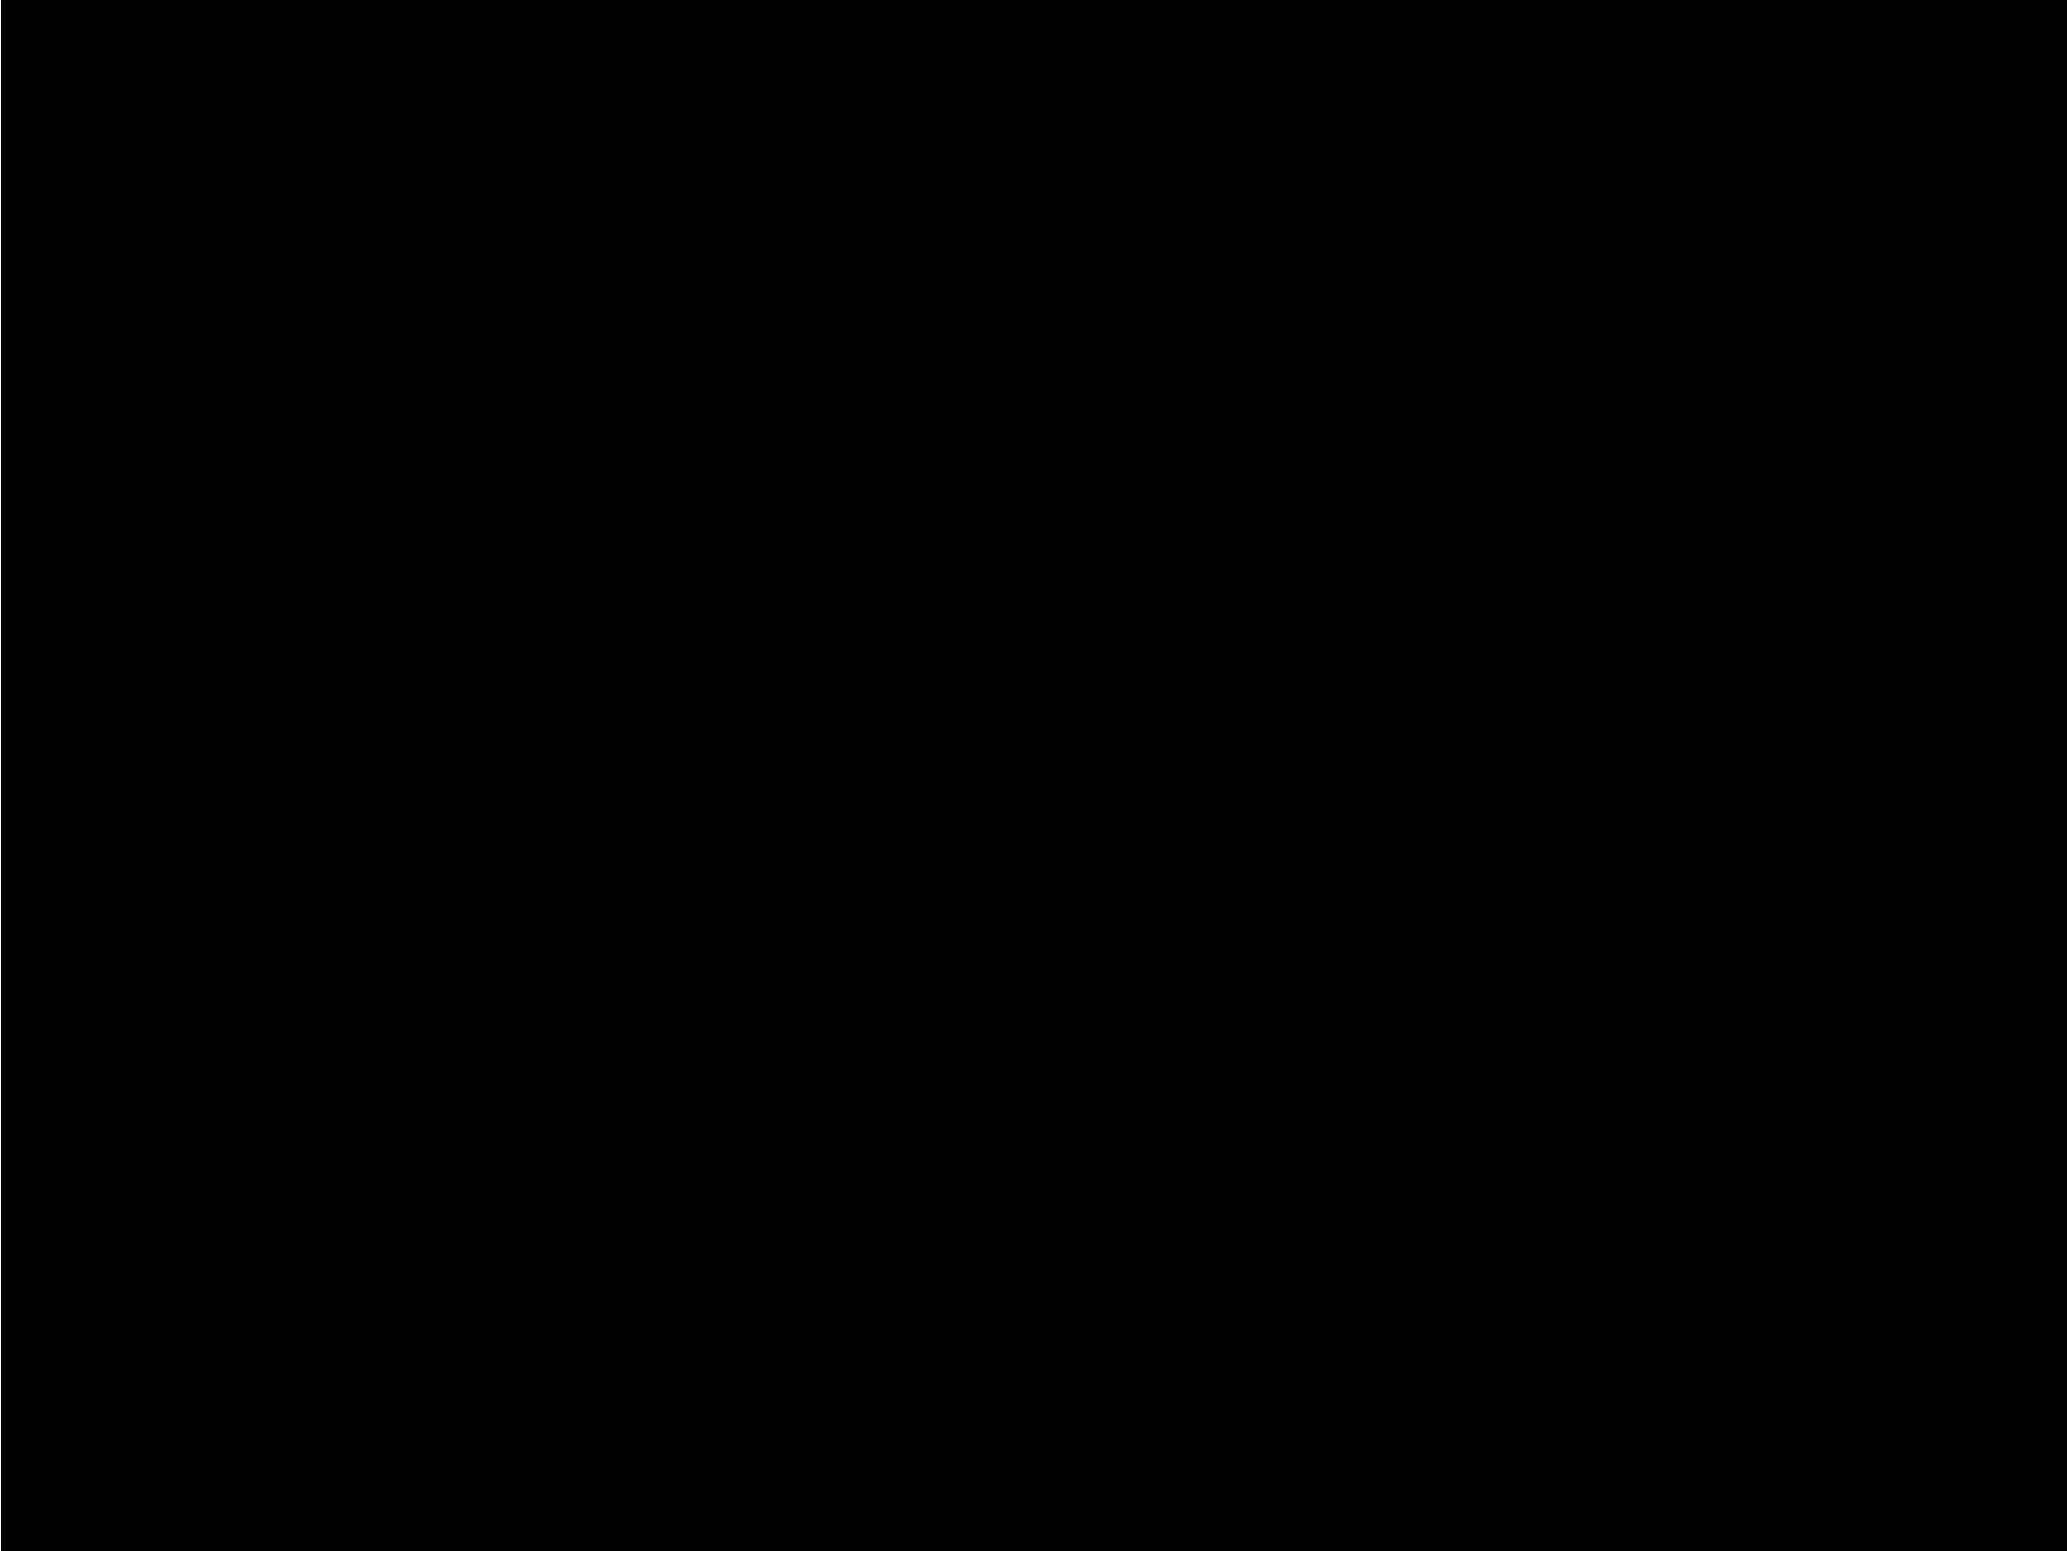

How Do We Know Venus Orbits the Sun?

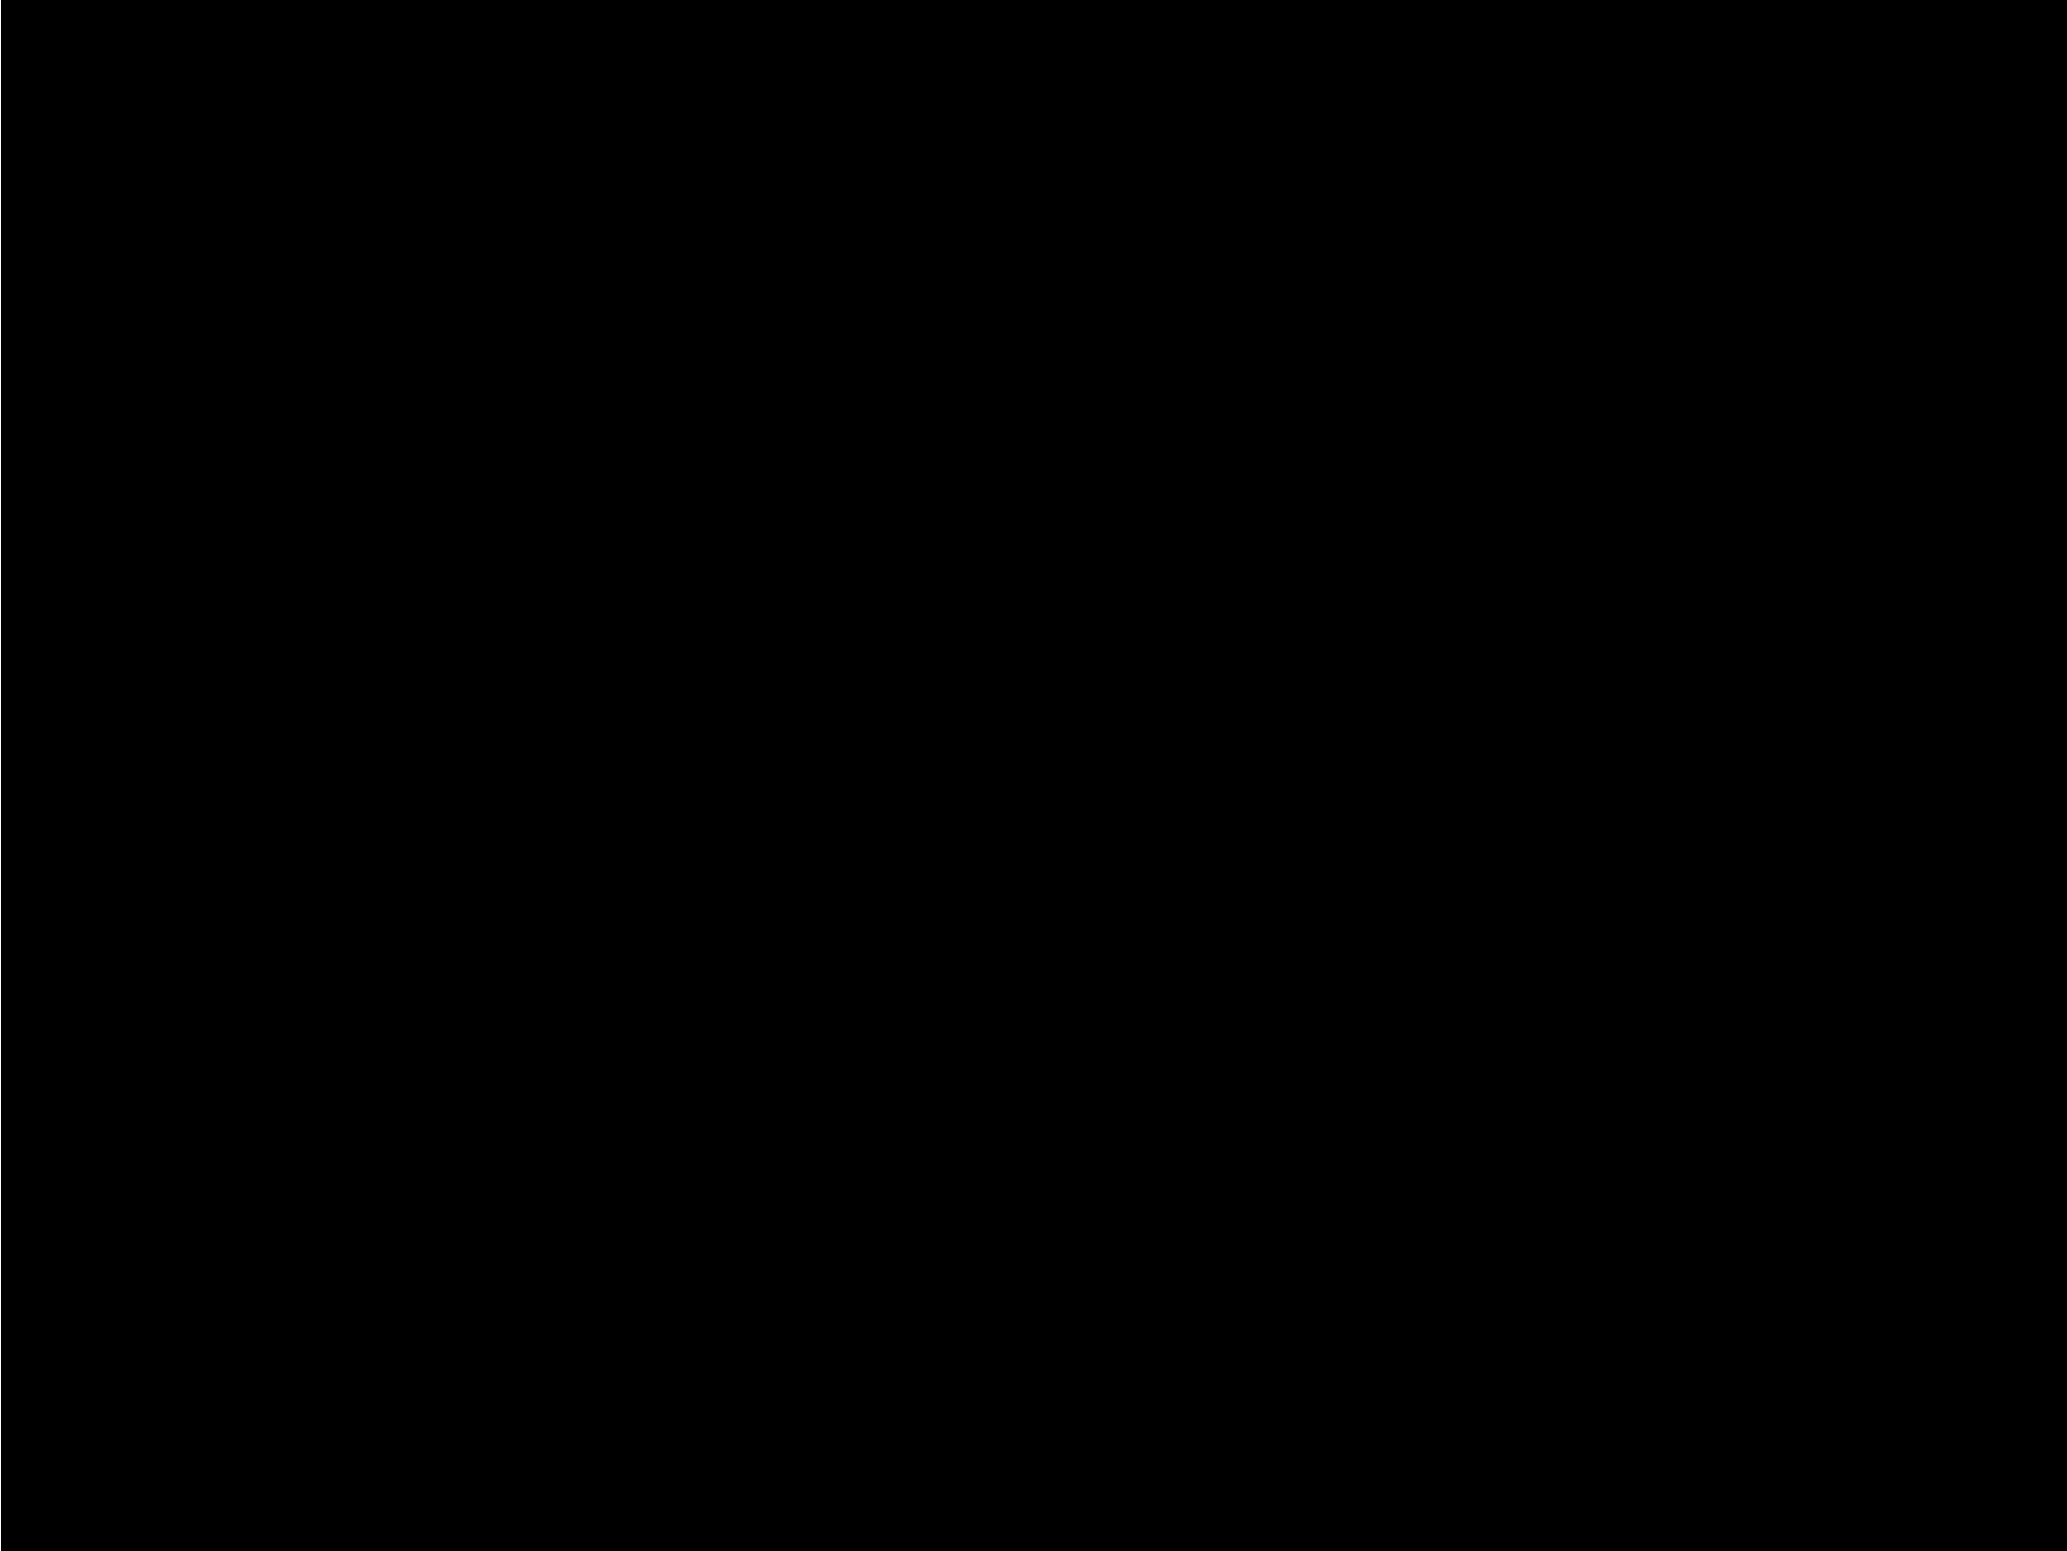

How Do We Know That Mars, Jupiter, etc. Are
Further From The Sun Than We Are?

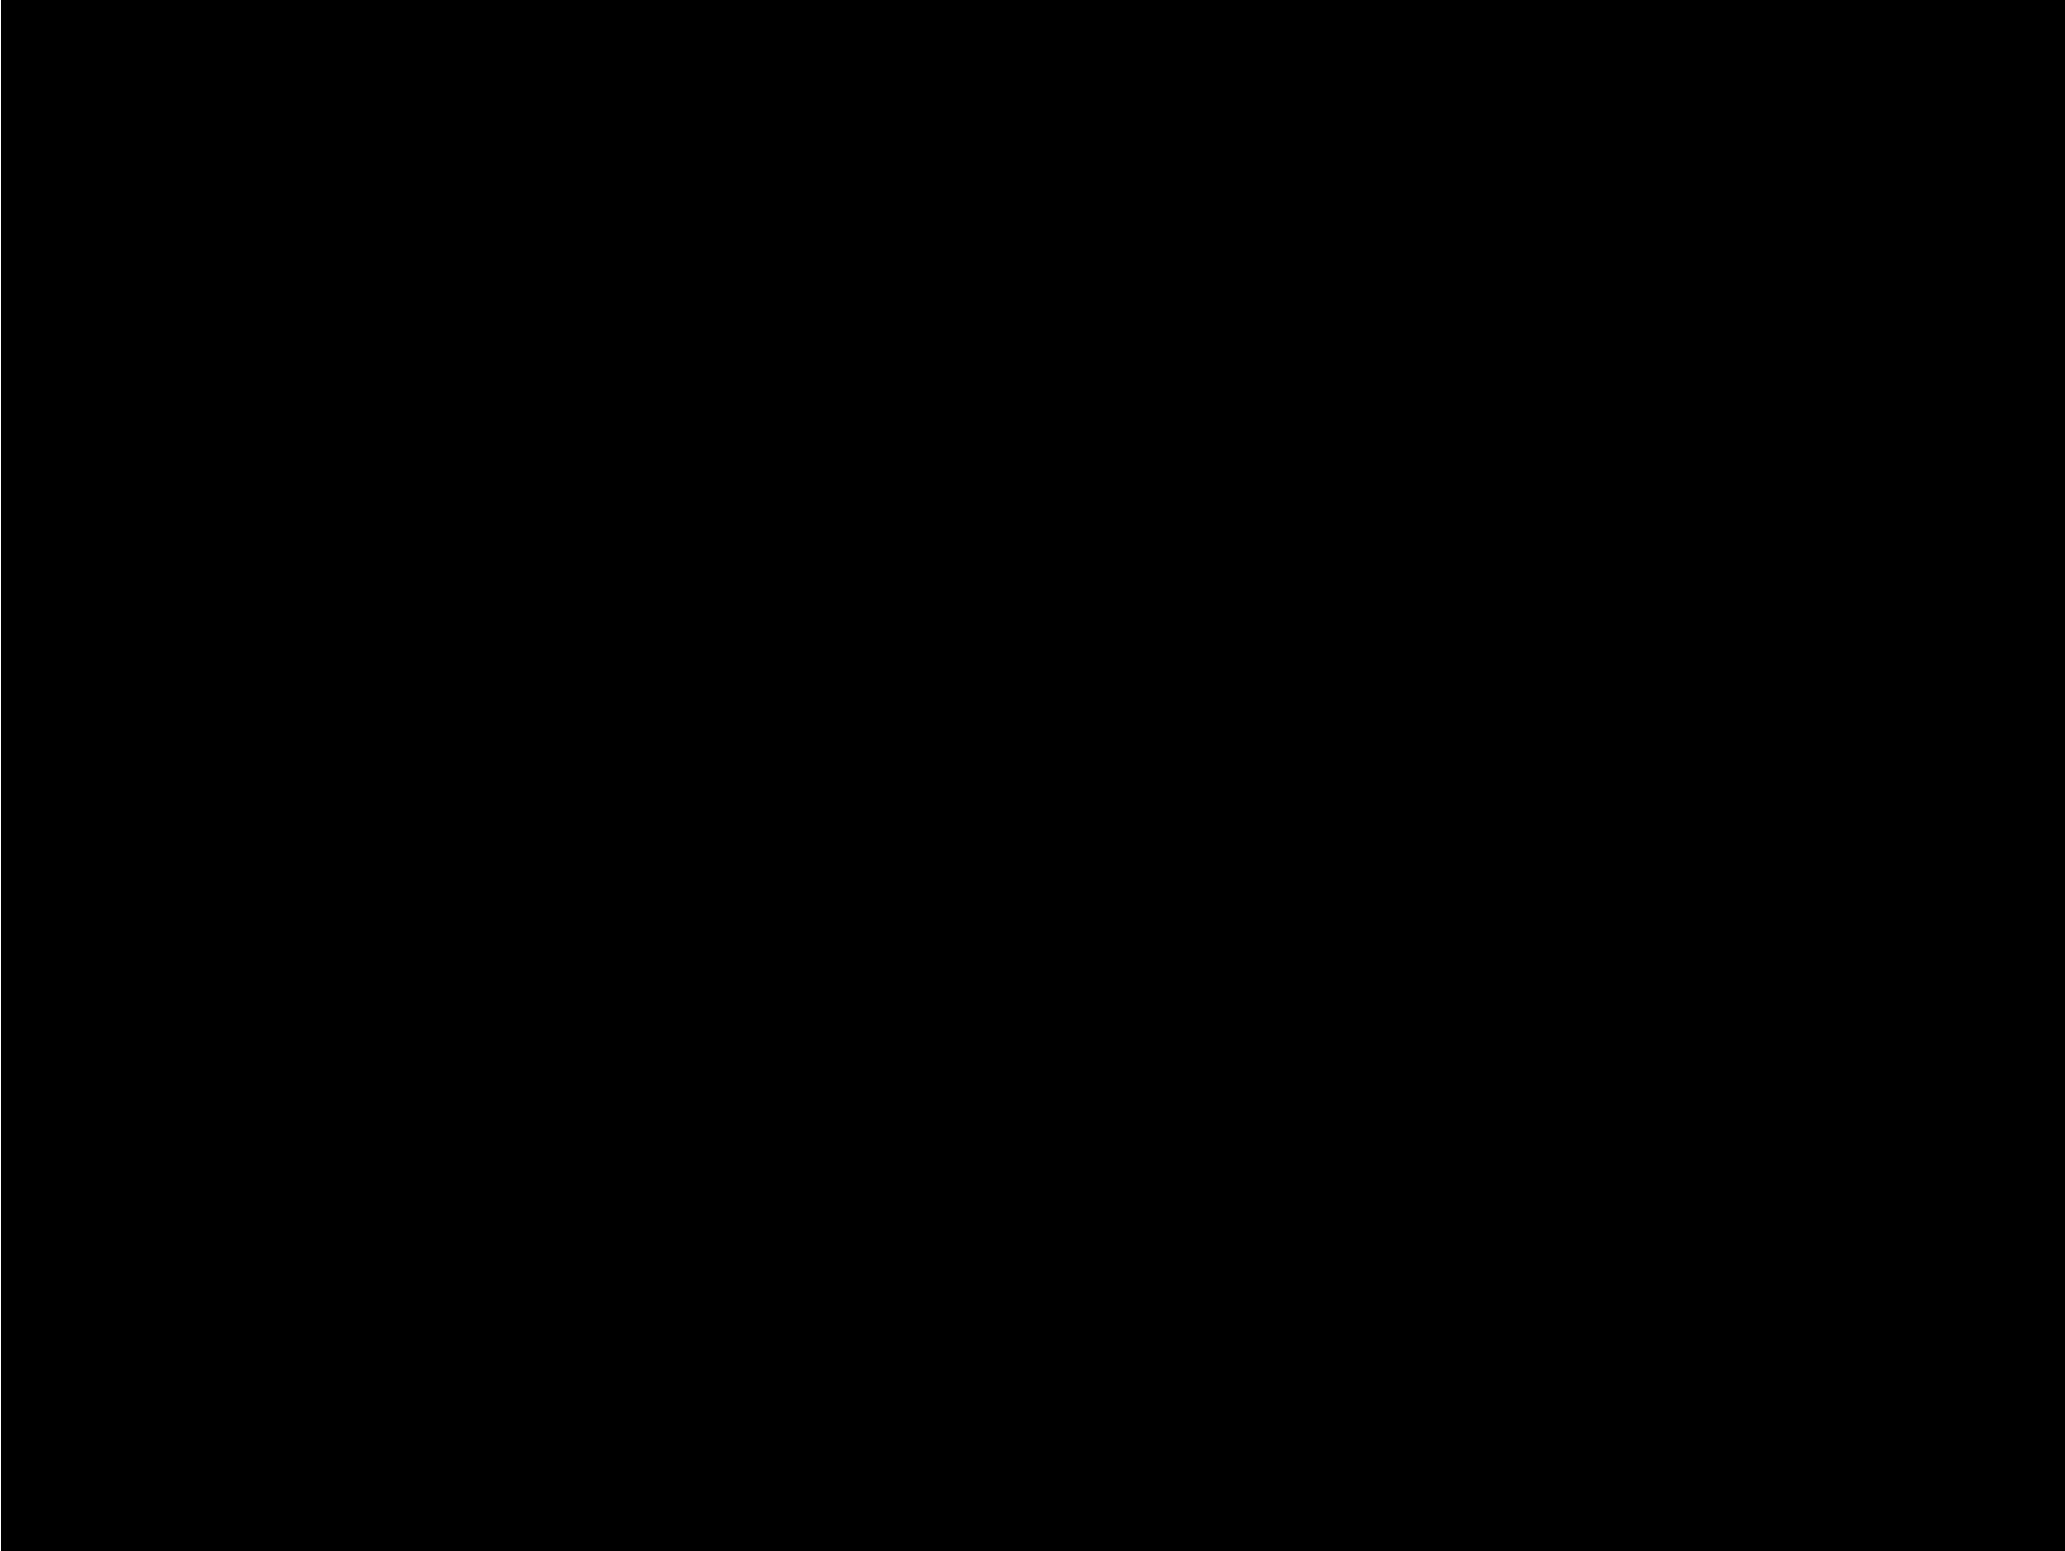

How Far Is Jupiter From The Sun?

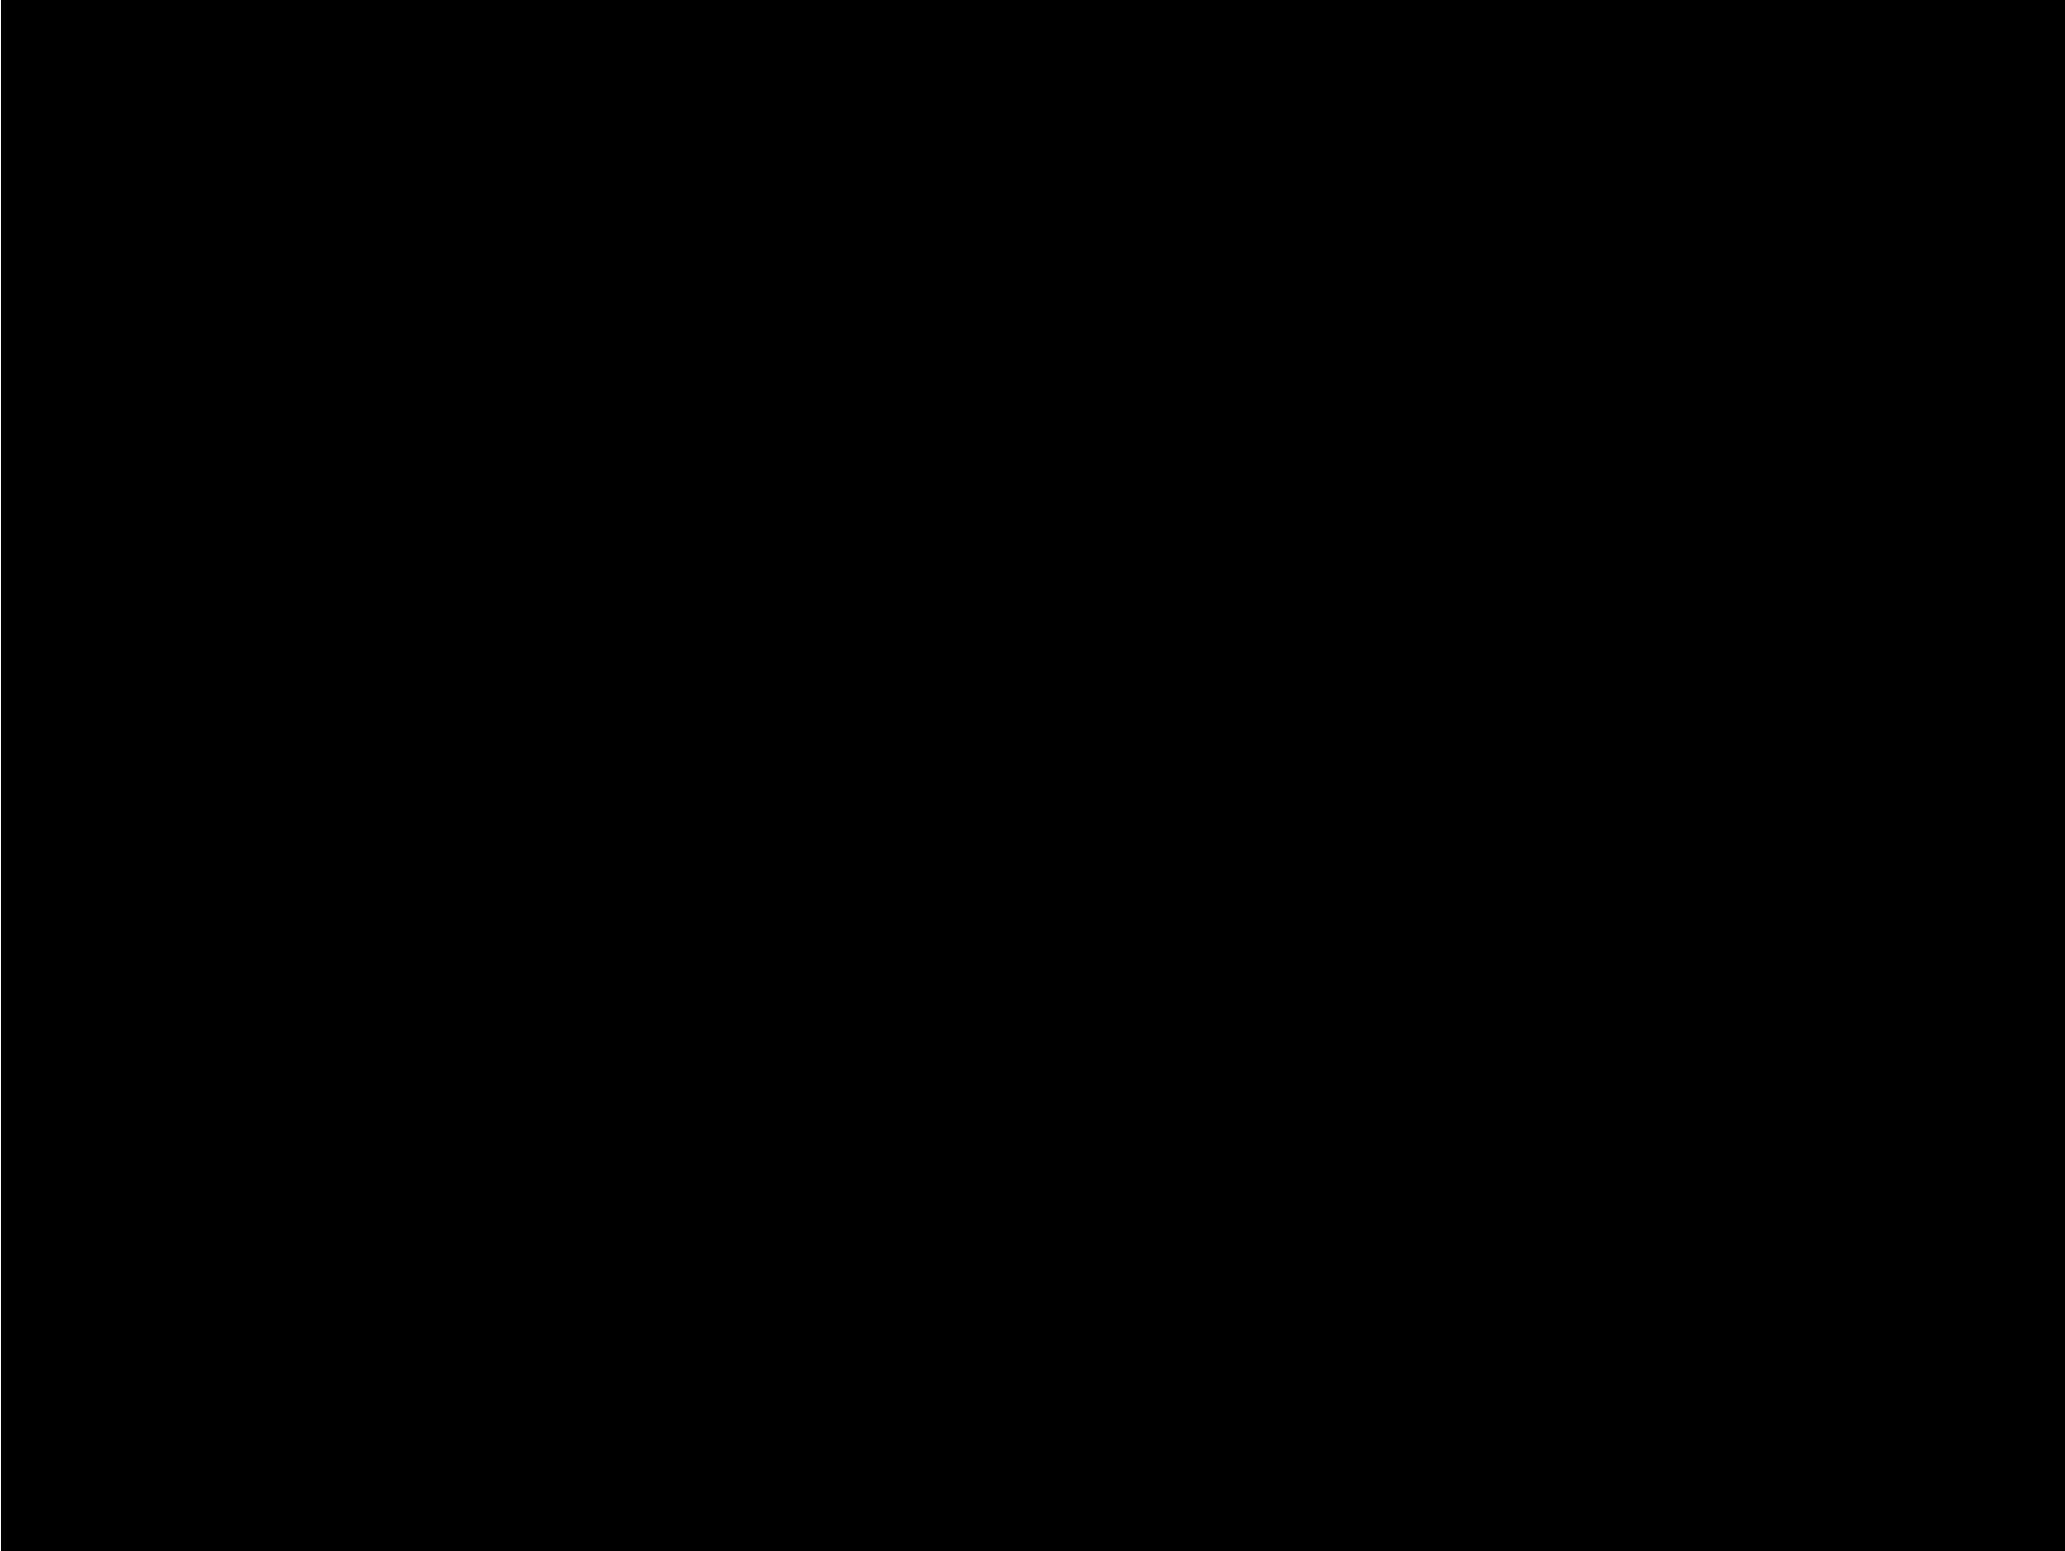

How Big Is Jupiter?

How Far Away Are Stars?

Can We Measure The Distances To the Stars?

How Do We Know That The Stars, As We See
Them, Don't Extend Out To Infinity?

Olbers' Paradox
